# Create an apple ID:

If you already have an Apple ID and you would like your child to use it on their school laptop, you simply need to give your child the password to that account. However, we recommend that you set up a separate Apple ID for your child to use on their school laptop. To do this, please follow the steps below. It is best to do this on an iPhone, iPad or iPod Touch. If you do not have one of these devices, you may do it on a Mac laptop or desktop.
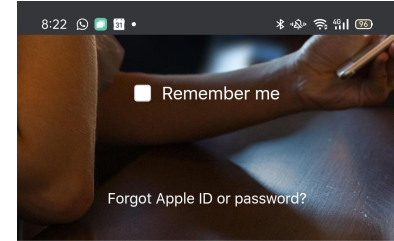

Creating a Student Apple ID (managed by parents) without a credit card:

If your child does not have a personal email account, create a new one (E.g. Gmail http://gmail.com/). Alternatively, you can also use your child's SSIS GMail account.

**You can use google chrome to create your apple ID on your phone.**
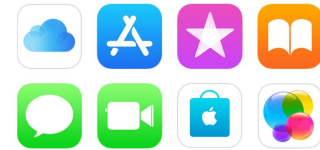

**You go to this link: https://appleid.apple.com**

**Click 'Create your apple ID'**

# Then you fill in all your information:

**Create Your Apple ID**
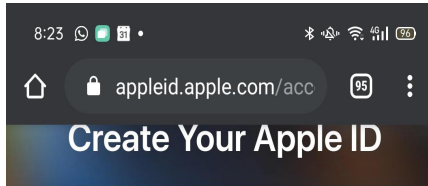

One Apple ID is all you need to access all Apple services.
